

## **106R – Primavera Advanced Topics**

This two-day course provides in-depth resource management training in Primavera's client/server-based solution. Building off skills learned in the basic course (102), the 106-R course covers advanced topics in managing resource allocation, future-period bucket planning and resource leveling. Extended workshops at the end of each day provide an opportunity to apply new skills and functionality.

### ***Learning Outcomes***

- Create resources and roles across the enterprise
- Use advanced functionality to assess resource allocation
- Tailor resource allocation via bucket planning and leveling
- Integrate resource and financial data

***Prerequisite:*** Course 102

***Course Length:*** 2 days

---
